64th Winter Nuclear & Particle Physics Conference

WNPPC 2027

Bromont, Québec Canada

February
11-14 2027

WNPPC.TRIUMF.CA

The Winter Nuclear and Particle Physics Conference is a national meeting for the Canadian subatomic physics community, providing a forum for junior researchers (with a special focus on graduate students) to present their research and interact with groups across Canada. This year's meeting is organized jointly by Queen's University, McGill University, SNOLAB and TRIUMF.

TOPICS

Dark Matter searches
Electroweak and Higgs physics
Neutrino properties
Nuclear structure
Nuclear and particle astrophysics
Physics beyond the Standard Model
QCD and hadrons

ORGANIZING COMMITTEE

Corina Andreoiu (Simon Fraser University)
Alain Bellerive (Carleton University, past chair)
Thomas Brunner (McGill University, Co-Chairperson)
Erica Caden (SNOLAB, permanent member)
Tim Friesen (University of Calgary)
Michela Lai (Queen's University, Co-Chairperson)
Annika Lennarz (TRIUMF, permanent member)
Tony Noble (McDonald Institute, permanent member)
Heather Russell (University of Victoria, past chair)
Jana Thomson (TRIUMF, Conferences Facilitator)
Gojko Vujanovic (University of Regina)
Noah Yazdandoost (TRIUMF)
