

WNPPC2020 - 57th Winter Nuclear Particle Physics Conference

Saturday, 15 February 2020

Feb. 15 Evening Session - KC303 (19:00 - 21:30)

-Conveners: Thomas Brunner

time	[id] title	presenter
19:00	[88] Recent Studies of Astrophysical Reactions at ISAC	Mr WILLIAMS, Matthew
19:30	[89] Primary electron drift time simulation in spherical proportional counter	Ms DENG, Yuqi
19:45	[90] Decay of a bound muon to a bound electron	Prof. ASLAM, Muhammad Jamil
20:00	[91] Applied Quantum Annealing for Track Re- construction in HEP	Mr REID, Parker
20:15	Coffee break	
20:30	[92] From odd-even staggering to the pairing gap in neutron matter	Mr PALKANOGLU, Georgios
20:45	[93] Nuclear Recoil Calibration at TUNL	Mr DE BRIENNE, Francois
21:00	[94] Analysis of electron drift properties and fluc- tuations for NEWS-G	Mr COQUILLAT, Jean-Marie
21:15	[95] Investigation of wavelength shifting materi- als in an active helium target	Mr PERRY, Michael
