

Beam-based Probes of Condensed Matter Physics, Chemistry and Related Fields in Canada

Friday, June 4, 2021

Positron annihilation spectroscopy (8:00 AM - 10:00 AM)

-Conveners: Iain McKenzie

time	[id] title	presenter
8:00 AM	[31] Positron annihilation: probing the atomic and electronic structures of condensed matter	Prof. TUOMISTO, Filip
8:30 AM	[18] Materials characterization by positron annihilation spectroscopy – A Canadian perspective	Prof. MASCHER, Peter
9:00 AM	[17] Positron production and positron beam experiments at NEPOMUC	Prof. HUGENSCHMIDT, Christoph
9:30 AM	[19] Discussion
