Yes, pants are mandatory for your Avatar! ;-)

# You need to allow Gather.Town to access your camera and microphone

The screenshot shows a web browser window with a permission dialog box open. The dialog box asks, "Allow gather.town to use your camera and microphone?" and lists two options: "Integrated Camera" and "Headset (Azrael Hands-Free AG Audio)". A red arrow points to the "Allow" button in the dialog box. Below the dialog box, there is a character selection screen with a pixelated character and an "Edit Character" button. To the right, a message box says, "Your devices are not enabled. Please grant Gather access" with icons for a camera and microphone. Below this, there are two "Connecting..." buttons for video and audio. At the bottom, there is a "Join the Gathering" button, which is highlighted in green and has a red arrow pointing to it. The browser's address bar shows "NSR LN2 UNIT4 BRIKEN Spring 2021 C..."

Allow gather.town to use your camera and microphone?

- Integrated Camera
- Headset (Azrael Hands-Free AG Audio)

Allow Block

Your devices are not enabled.  
Please grant Gather access

# You can skip the tutorial if you are already familiar with Gather.Town

The screenshot shows the Gather.Town tutorial interface. On the left, a dark blue sidebar contains the text "Welcome to Gather!" and a "BASICS" menu with three items: "Moving around" (highlighted with a yellow play button), "Muting and unmuting", and "Interacting with objects". A red arrow points to a "Skip Tutorial" button in the sidebar. The main area features a dark blue tutorial box with a character icon for "RILEY" and the text: "Hello, Iris! Let's get started. I'm Riley, and I'll be helping you learn the basics before you enter NA Storage Rings Wksp. Use the arrow keys or WASD on your keyboard to move around. Try walking to the glowing tile!". To the right of the text are icons for the arrow keys. The background is a light blue virtual world with a glowing square tile, a tree, and a small plant. A chat window for "Iris" is visible in the bottom right corner.

Welcome to Gather!

**BASICS**

- ▶ Moving around
- Muting and unmuting
- Interacting with objects

**Skip Tutorial**

**RILEY**

Hello, Iris! Let's get started.

I'm Riley, and I'll be helping you learn the basics before you enter NA Storage Rings Wksp.

Use the arrow keys or WASD on your keyboard to move around.

Try walking to the glowing tile!

Iris

Everyone within one private space will be able to chat with each other. People passing by outside of that space will NOT be able to communicate with them unless they enter the space.

People moving/ standing outside private spaces will be able to see/connect with everyone in their near vicinity (2-3 tiles away) except for private spaces.

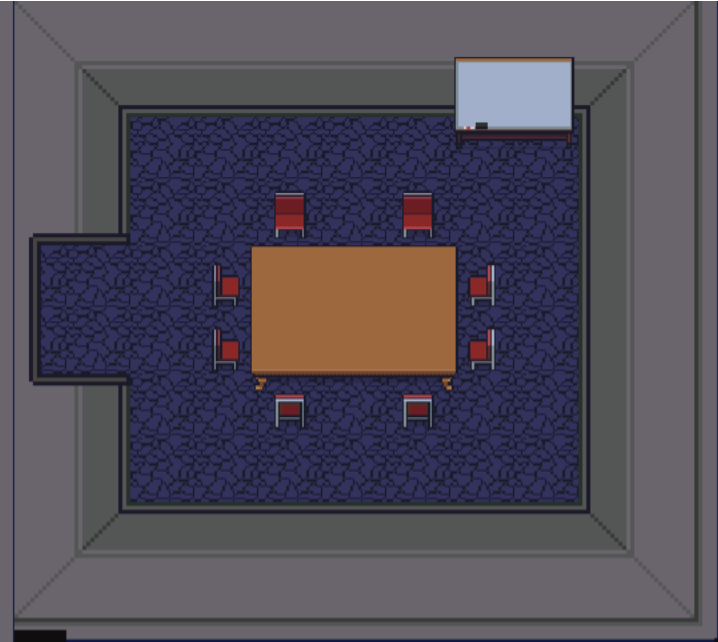

You have entered a private space

Iris

***If you have camera/microphone problems, or are “stuck” somewhere: reset via “respawn”***

**Use Smooth Movement**

Enable smoother player movement. Disabling this may improve performance.

**Auto Idle Muting**

Automatically mute audio and video while away from the tab

**Use HD Video Quality**

Always makes videos HD when possible. Disabling this may improve performance.

**Use Original Audio**

Turn off echo cancelling, noise suppression, and gain control from your sound input.

**Beta features**

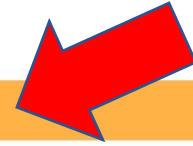

Try out new features before they're widely released!

**Actions**
