## Data Management Strategy

5

- As part of TRIUMF's RDM strategy, we need to provide brief feedback to Reda on "How do you currently manage and handle your research data".
- I have created a [SharePoint document here](#) where you can fill in your responses. It would be good if we could complete this by the end of this week.

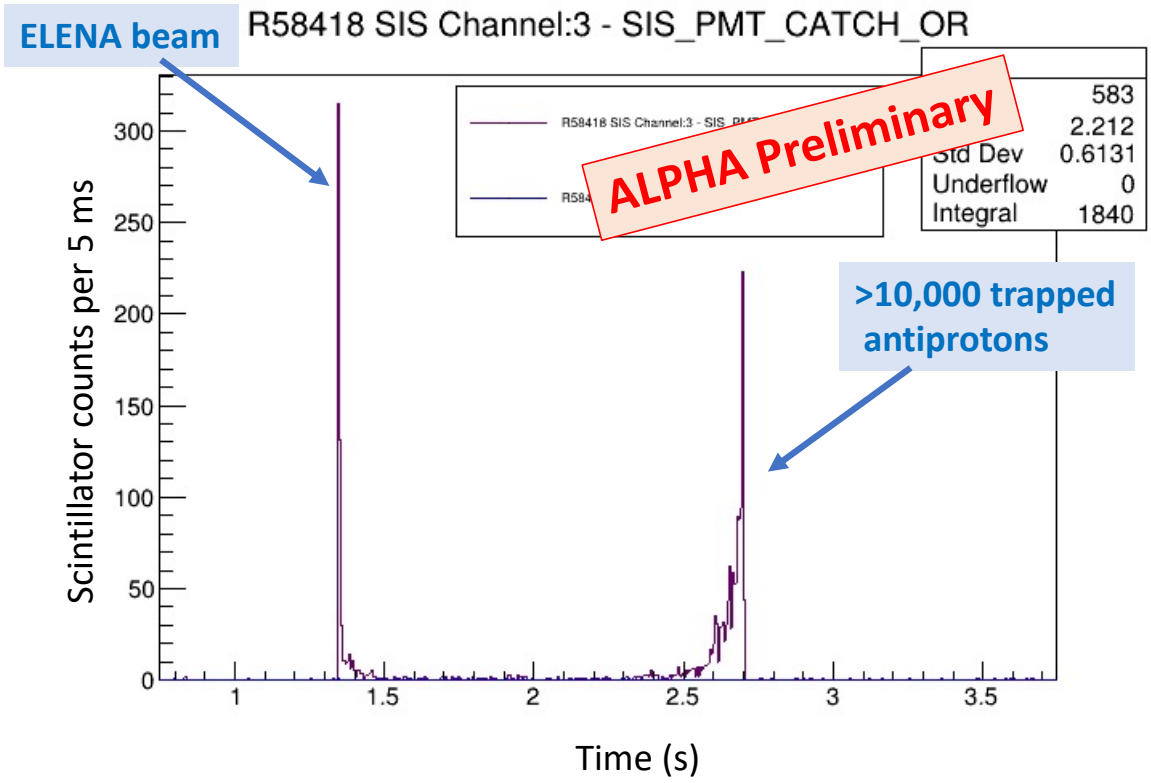

## PP Meetings

- Some groups have started to have small in person group meetings at TRIUMF
- Is there interest to move this meeting to a hybrid model where people can connect via Zoom as now but also give people option to be in person at TRIUMF?
- We would need to wear masks of course in the meeting room

# SMM: Particle Physics Department News

- First trapped antiprotons from ELENA! Aug 27, 2021

Happy shift crew (mostly students and postdocs) in the ALPHA Control Room

## Hiring

- Patrick de Perio on long term leave at IPMU, University of Tokyo
- After several retention and dual-career hire request attempts to TRIUMF, Patrick accepted Assistant Professor position at IPMU starting September 2022
- Suggest to submit request for replacement hire starting September 2022, thus need to start the process soon (Akira and Patrick are preparing jobDescription)
- Question to discuss:
  - How does this hire potentially influence the ALPHA request in terms of timeline or sequence - if we hire serially (as was the case when Jens was ALD)
- In principle the two are independent and I would suggest we treat them as such

## Round Table

- ATLAS
- T2K/HyperK
- UCN
- ALPHA
- SuperCDMS
- Pienu
- NA62
- DEAP
- SNO+
- EXO
- HALO
- g-2
- Belle 2
- Theory
