

PSD Space Committee

- Since lab-wide space committee is not active, we have formed a PSD ad-hoc space committee to:
 - Collect and synthesize information on PSD office and research space needs
 - Provide recommendations on use of space
- Member from each department in PSD: W. Fedorko, M. Hartz (chair), N. Hessey, B. Hitti, C. Ruiz, N. Vassh
- 2 meetings so far, largely focussed on information collection
- Have collected and are clarifying the research space needs
 - If you have a need and you didn't previously communicate it to Oliver or myself, please share it.
 - From PPD, we are aware of: MOB 149 lab space, HAICU, UCN Meson Hall liquefier upgrade, HyperK pilot mPMT production, nEXO CFI
- Investigation of the office space crunch in MOB
 - Situation becomes challenging with new BAEs, upcoming hires and some ATLAS personnel who need desks
 - Solutions will depend on ultimate work-from-home model implemented by TRIUMF
 - If there are any upcoming changes to the status quo for office space needs, please let me know
 - We have a spreadsheet for student/postdoc/technical personnel who need desks in MOB that can be updated:
https://triumfoffice365-my.sharepoint.com/:x/g/personal/mhartz_triumf_ca/EXUZQZn4duVDmKvYcnJ_cSUB5qUGZ_0fj7GW_47DP8kqOQ?e=0YqiG8
 - We are working with Petr to try to acquire desk space currently used by directorate in MOB 2nd floor. At least 2 desks in office 213 should become available this summer
