

ACOT Poster Session - October 2022

Tuesday, 25 October 2022

Molecular and Materials Science (11:00 - 12:00)

time	[id] title	presenter
11:00	[30] Ubiquitous Spin Freezing in the Superconducting State of UTe ₂	AZARI, Nasrin
11:00	[23] Studying the evolution of the metallic state of LaNiO ₃ from a single crystal to superlattices using ⁸ Li b-detected NMR	KARNER, Victoria
