

WNPPC2023 - 60th Winter Nuclear Particle Physics Conference

Thursday, 16 February 2023

February 16 Evening Session: Physics Beyond the Standard Model - KC 303 (19:00 - 21:00)

-Conveners: Alain Bellerive

time	[id] title	presenter
19:00	[76] Opening Remarks	
19:15	[87] The Cosmology and Astrophysics of Dark Complexity	Dr CURTIN, David
19:45	[37] An Auxiliary ATLAS Detector to Enhance the Detection of Long Lived Particles	KELLY, Joseph Mitchell
20:00	[18] Searches for periodic resonance signals in the e^+e^- and $\gamma\gamma$ channels at $\sqrt{s}=13$ TeV in ATLAS	LAU, Ho Chun
20:15	[66] Background simulations on Charged-Lepton Flavour Violation (CLFV) in the Leptoquark framework at the EIC	QUNI, Bardh
20:30	[17] Signal corrections using background detectors in MOLLER experiment	Ms GORGANNEJAD, Fatemeh
20:45	[28] Compton Polarimetry at the Electron-Ion Collider	VIJAY, Akshaya
