

WNPPC2024 - 61st Winter Nuclear Particle Physics Conference

Friday, 16 February 2024

Morning 2 - Feb. 16, 2024 - Salon AB (10:30 - 12:15)

-Conveners: Caio Licciardi

time	[id] title	presenter
10:30	[108] Through Thick and Tin: Investigating Tin Isotopes Approaching N=Z Nuclei	CZIHALY, Annabelle
10:45	[109] Quantum Machine Learning Towards the Development of Automated Analysis of Data from Large-Scale Gamma-Ray Spectrometers	BUCK, Samantha
11:00	[131] Silicon Photonics Based Optical Communication System for Large Scale Physics Experiments	Mr MARTEL-DION, Philippe
11:15	[133] Photon-to-Digital Converter for Large Scale Noble Liquid Detectors	LEPAGE, Olivier
11:30	[110] Towards Optical Wavelength Readout of Acoustic Superfluid Helium in Ultralight Dark Matter Detection (HeLiOS)	AU, Minh ROURKE, Sarah
11:45	[148] Advancing Equity, Diversity, Inclusion and Indigenization in Astroparticle Physics	Dr PEDERSEN, Alexandra
