

Dark Interactions 2024

Vancouver, Oct. 16-18

New Perspectives from Theory and Experiment

Organizing Committee

Kétévi Assamagan (BNL)

Matthias Danninger (SFU)

David McKeen (TRIUMF)

Gopolang Mohlabeng (SFU)

David Morrissey (TRIUMF)

Heather Russell (UVic)

Topics

Theory overview of dark sectors

Current status and future perspectives from
collider and non-collider experiments

Astrophysical and cosmological probes of dark sectors

Implications from the neutrino sector

Gravitational probes of dark sectors
