

# WNPPC2025 - 62nd Winter Nuclear & Particle Physics Conference

## Sunday, 16 February 2025

### Morning 6 - QCD and Hadrons - Kinnear Centre Room (KC 303) (10:30 - 12:15)

-Conveners: Timothy Friesen

time	[id] title	presenter
10:30	[25] Jet broadening in a viscous nuclear medium	REGI, Hemanth
10:45	[60] Jet and photon tomography of the nuclear medium created in heavy-ion collisions	KUMAR, AMIT
11:00	[3] Rare $\eta$ Decay Signal and Background Generation for JEF	ORESIC, Stjepan
11:15	[7] Unveiling Hadronic Mass Generation Through Light Meson Structure with ePIC	Mr PREET, Love
11:30	[8] HVP Contributions to Muon $g-2$ : QCD Constraints Using Inequalities and Sum Rules	LI, Siyuan
11:45	[9] From Spin to Structure: Beam Spin Asymmetry in Exclusive Pion Electroproduction	POSTUMA, Alicia
12:00	[10] Update on PionLT DEMP Factorizability studies.	HEINRICH, nathan
