

6th RaDIATE Collaboration Meeting

Thursday, 12 December 2019

8th Oral Session: Other Irradiation Effects (09:00 - 11:00)

-Conveners: Yong Joong Lee

time	[id] title	presenter
09:00	[1] Post irradiation Examination of a spent Antiproton Production Target	Dr CALVIANI, Marco
09:25	[11] Harvesting Experiments on Additive Manufactured Titanium Alloy Beam Stopper with Radiation Assisted Corrosion Impacts	Mrs ABEL, Emily
09:50	[16] The formation of radiolysis products during isotope harvesting with a flowing water target	Dr DOMNANICH, Katharina
10:15	[13] Proton irradiation effects on the phase stability of ($\alpha+\beta$) Ti-6Al-4V irradiated at BLIP using dilatometry and high energy X-ray diffraction techniques at the BNL synchrotrons	Dr PALMER, Mark
10:40	Discussion
