

Contribution ID: 101

Type: **Invited oral presentation**

GANIL status & science program

GANIL/SPIRAL2 presently offers unique opportunities in nuclear physics and in many other fields that arise from not only the provision of low-energy stable beams, fragmentation beams, re-accelerated radioactive species, and recently neutron beams but also from the availability of a wide range of state-of-the-art spectrometers and instrumentation. A few examples of recent highlights will be presented together with upcoming new scientific opportunities with ongoing projects.

Primary author: SAVAJOLS, Hervé (GANIL (CNRS))

Presenter: SAVAJOLS, Hervé (GANIL (CNRS))

Session Classification: TRIUMF Colloquium
